

## Livox Mid Series Release Notes

---

Date:	2019.08.11
Livox Mid Series Firmware:	V03.06.0000

---

### What 's New?

- Refined the error protection function for the Livox Mid series LiDAR sensors.

## Livox Mid Series Release Notes

---

Date:	2019.04.26
Livox Mid Series Firmware:	V03.05.0000

---

### What 's New?

- Fixed the errors of Spherical coordinates.
- Optimized the startup capability of the LiDAR sensors in low temperature environment.
- Added warnings when the rotational fluctuation of the motor is detected.

## Livox Mid Series Release Notes

---

Date:	2019.03.07
Livox Mid Series Firmware:	V03.04.0000

---

### What 's New?

- Fixed the abnormal time synchronization issue of the Livox Mid-100.
- Optimized the noises at close range in FOV in some complex scenarios.

## Livox Mid Series Release Notes

---

Date:	2019.01.25
Livox Mid Series Firmware:	V03.03.0000

---

### What 's New?

- Optimized the noises at close range in FOV.

## Livox Mid Series Release Notes

---

Date: 2019.01.15  
Livox Mid Series Firmware: V03.02.0000

---

### What's New?

- Fixed the bugs of the extrinsics function of the Livox Mid-100.
- Status codes retained even in error status.

## Livox Mid Series Release Notes

---

Date: 2019.01.11  
Livox Mid Series Firmware: V03.01.0000

---

### What 's New?

- Added Rain/Fog Suppression and dust warning functions.
